

Narendra Jana

I am filing a report for 37 or more instances of criminal fraud and criminal medical negligence taking place in the United States, Europe, Mexico, and Asia.

I spoke to the US embassy, Interpol, the police in the US, and the local police and they stated that in order to report a crime that takes place in several nations one would have to report it to their local police station and the case is forwarded to the appropriate parties (probably to Interpol because it's an international crime).

Since it's a case of falsifying and misrepresenting medical data to harm a person it's a criminal fraud case. And since it's in a medical setting it's a criminal negligence case (with repeated attempts at intentionally trying to harm a patient).

I couldn't personally report this crime in the US because I am in asylum from the United States, immigration restricts me from leaving this country (the United Kingdom).

I could not report the crime earlier due to the aggressiveness of the US in perpetuating fraud to mistreat a neurodegenerative condition. The intent of criminal malice in this case is to cause physical deformation or disability by withholding medications for a neurodegenerative condition called Multiple Sclerosis (MS).

Since the criminals tend to be aggressive about fraudulating medical evidence (criminal fraud) with the intent of withholding medical treatment when there is often gross need for the medications (leading to hospitalizations in foreign nations where more responsible doctors administer the appropriate medications) I was afraid of filing the reports earlier in the indication that they continue to be aggressive at the risk that I would not get the appropriate medications.

But they continued to be aggressive so I have no choice but to file the police report now.

Background:

US Citizen – Raised in Massachusetts
34 Years Old
College Graduate with an Electrical Engineering Degree
Computer and Information Technology Engineer

Multiple Sclerosis since clinical toxicological syndrome in 2008 and clear neurological signs before in 2007.

On August 5th 2019 had to seek asylum in the United Kingdom because of the 17 or more instances of fraud in a medical setting with 25 or more instances of criminal negligence with the intent of causing harm in the US and in foreign nations. Is a registered asylee with a ARC (asylum registration) card.

Nature of the crime:

The criminals feel that as long as they continue to “jigsaw” medical falsifications (and often unrealistically and dumbly) in a progressive neurodegenerative condition they could be absolved of their criminal negligence with further criminal falsifications. The overall effect is that it caused progressive neurological damage to the optic nerves, brain, and spinal column (which is easy to see in MRIs).

Each instance of fraud is an addition instance of aiding and abetting a criminal to further negligence.

Their mindset is similar to common criminals, an attempt at avoidance of the illegality of criminal fraud by further perpetuating fraud in another setting. They believe it’s a convincing crime when its easy to show otherwise as well.

Each instance of fraud is typified in this report as what could only be described as delusional behavior on the part of those committing fraud.

A instance by instance list of criminal medical fraud and criminal medical negligence supported by fraud is given below (its non trivial malice in a medical setting):

1. 2008 April to 2010 October
 - Dr. Richard Falzone – McLean’s Hospital, Belmont, Massachusetts, USA
 - Criminal Negligence →
 - Negligence and mistreatment under psychiatry.
2. 2008 and Early 2009
 - Dr. Evan Murray - Belmont, Massachusetts, USA
 - Criminal Negligence →
 - Dr. Evan Murrays negligence followed by Dr. Bruce Price and medically inappropriate recommendations that cause gross neurological damage, brain lesions and persistent seizures which is attempted to be hidden.
 - 2008 December Gross Features of MS Present and ignored in medical settings and intentionally left untreated.
3. 2007 to 2011
 - Dr. Gary Trey – Beth Israel Hospital, Boston, Massachusetts, USA
 - Evasiveness
 - Dr. Gary Trey was my primary care physician (GP) at Beth Israel Hospital. He either never wrote appointment summaries or erased them.
4. 2010 February, 22nd
 - Beth Israel Hospital Radiology - Boston, Massachusetts, USA

- Criminal Fraud →
 - MRI images are erased to hide MS with a fraudulated MRI report.
- 5. 2010 March 15th
 - Dr. Ellen Salurand – UMass Memorial Hospital – Worcester, MA
 - Criminal Negligence →
 - Dr. Ellen Salurand denies treatment under toxicology with clear features in an MRI. All future MRIs show the toxicity that was attempted to be hidden in the February, 22nd MRI. MRI reports are falsified.
- 6. 2010 August 25th
 - Dr. Evan Murray and Dr. Steven Siner
 - Criminal Malice in a Medical Setting →
 - Giving ECT (A doctor knowingly giving a patient ECT (electro convulsion therapy) to patient with multiple sclerosis.
- 7. 2011 March, 10th
 - Dr. Sundeep Kumar – Beth Israel Hospital – Boston, MA
 - Negligence →
 - Should have recognized that the previous MRI had missing MRI images in an incomplete series. An EEG was done in the hospital that may not reflect clinical presentation.
- 8. 2012 July 20th
 - Dr. Brad Baker – Worcester, MA
 - Ignored clear optic neuropathy secondary to MS in high resolution images.
- 9. 2012 September 5th
 - Dr. Joel Herskowitz
 - Negligence →
 - Failed to recognize the clear signs of MS and do the appropriate tests.
- 10. 2012 October 30th and December, 27th 2012
 - Dr. Georgia Montouris - Boston Medical Center – Boston, MA
 - Criminal Fraud →
 - Fraudulated EEG and MRIs Reports under Dr. Georgia Montouris - Report it different from what the EEG and MRI shows
- 11. 2013 October 10th
 - Dr. Diana Apetauerova - in Lahey Hospital Massachusetts – Burling Hospital
 - Fraud →
 - MRI Done in Lahey Hospital Massachusetts – Falsified Radiology Report
- 12. 2013 November 8th
 - Dr. Stefanos Kales - Cambridge Health Alliance – Cambridge, Massachusetts
 - Criminal Negligence →

- Replicates the same medical negligence as Dr. Ellen Salurand, denying treatment for a toxicological underpinning to neurodegenerative condition.

13. 2013 November 13th

- Dr. Sean Rhyee – Umass Memorial – Marlborough, Massachusetts
 - Criminal Negligence →
 - Dr. Sean Rhyee is far more aggressive about limiting treating under toxicology, all MRIs since 2008 show a T1 intensity in the basal ganglia of the brain indicating that the toxicity has been persistent since the first feature. It was an attempt under medicine to cause harm by limiting medical treatment for a clear condition.

14. 2014 June 17th

- NYU Neurology - Dr. Soujel Najjar and Kimberly Menzer – NYU Neurology- New York, New York, USA
 - Criminal Fraud and Negligence →
 - Extensive blood test reports are falsified in the hospital setting
- 2014 After June – Dr. Valentine Riteri
 - 2 appointments with NYC Psych Doctor where no medications are prescribed and isn't a treating physician

15. 2015 December to February 2016

- Dr. Vladan Milosavljevic - New England Neurological Associates – Lawrence, Massachusetts
 - Criminal Fraud and Negligence →
 - Falsifies EEGs EMGs and Blood Tests
- Dr. Maosong Qi
 - Possible Fraud
 - Possible fraud in blood tests

16. 2016 to 2019

- Insurance Restriction
 - Using Insurance to limit affordability of medications for progressive neurodegenerative condition.

17. 2016 March 27th

- Under Dr. Yotin - Bangkok Hospital, Bangkok, Thailand -
 - Criminal Fraud →
 - Though Dr. Yotin is a treating physician the Lumbar Puncture results are falsified in the hospital.

18. 2016 April 21st

- Bangkok Hospital Epilepsy, Bangkok, Thailand
 - Possible Criminal Fraud →
 - Hospital Epilepsy clinic most likely falsified the EEG report.

19. July 25th 2016

- Dr. Jacob Sloan, Beth Israel Hospital, Boston, Massachusetts

- Negligence →
 - 2016 Asking For Help in a Serious Condition- Dr. Sloan Denies Treatment or Diagnostics in Beth Israel Hospital
- 20. 2016 July 7th
 - Dr. Robert Fox, Cleveland Clinic, Cleveland, Ohio
 - Negligence →
 - Denies Treatment or Diagnostics in Cleveland, Ohio
- 21. 2017 January 10th
 - Riga 1st Hospital Radiology – Riga Latvia
 - Criminal Fraud that shows all other MRIs are also Criminal Fraud →
 - MRI is Falsified with a high resolution video to show how it was falsified and how falsifications in radiology are perpetuated
- 22. 2017 April 7th and 2017 May 12th
 - Dr. Paul Raffer – Sharp Hospital, San Diego, California
 - Criminal Negligence →
 - Dr. Raffer denies medical treatment for MS in Sharp San Diego
- 23. 2017 April 29th
 - Emergency Department – Sharp Hospital – San Diego, California, USA
 - Negligence →
 - The ER department ignores clear optic neuropathy due to MS
- 24. 2017 August 16th
 - Emergency Department - University of California San Diego (UCSD) Hospital – San Diego, California, USA
 - Criminal Negligence →
 - ER denies treatment with a clear presentation and MRIs in a severe medical state warranting that I get the IV medications abroad immediately thereafter (in Mexico City, Mexico).
- 25. 2017 August 25th (Imagen Radiological), August 9th and 24th (Nucleo Radiologico Avanzado)
 - Imagen Radiological Integral and Nucleo Radiologico Avanzado – Tijuana, Mexico
 - Criminal Fraud →
 - Imagen Radiological Integral - Radiology falsifies MRI Report- Gross features of MS in the MRI so makes the report impossible
- 26. 2017 September 9th
 - Dr. Miguel Balanzario - Hospital Angeles Acoxpa, Mexico City, Mexico
 - Criminal Fraud →
 - Hospital falsifies the Lumbar Puncture (LP) test
- 27. 2017 September 25th onward till September 17th 2018
 - CI3M Radiology Clinic – Mexico City, Mexico
 - Criminal Fraud →

- Multiple instances of fraud in radiology reports that are a direct contrast to the progression of the clinical syndrome and course of medications.

28. 2018 March 13th,

- Dr. Daniela Bermphol- Charity Hospital Berlin and Labor Berlin, Berlin, Germany
 - Criminal Fraud →
 - The doctor and the hospital falsify the results of a LP test that is immediately proven to be falsified since several ERs occur during the same period requiring ER and outpatient treatment

29. March 11th and March 16th to 17th, 2018

- Dr. Pia Schumacher, Dr. Benjamin Hotter, and Dr. Kaspar Streitberger, Charity Hospital Berlin (Virchow and Mitte), Berlin, Germany
 - Criminal Negligence →
 - Dr. Pia Schumacher and the other doctors deny medical treatment in a emergency setting for gross lesions and spinal atrophy clear in the MRIs

30. 2018 April 10th

- Dr. Patima Orrawanhanonthai - Bangkok Hospital, Bangkok, Thailand
 - Criminal Fraud →
 - Lumbar puncture tests results are falsified

31. 2018 June 14th

- Dr. Justin Dominick -Sharp Hospital San Diego, California
 - Criminal Negligence →
 - Lies about all the MRI data to further the medical negligence with a clear gross presentation of MS

32. 2018 July 16th

- Dr. Jonathan Carter - Mayo Clinic – Phoenix, Arizona
 - Criminal Negligence →
 - Dr. Jonathan Carter and Kate Grimsrud (Mayo Clinic Arizona) lie about MRIs and denies medical treatment.

33. 2018 September 19th

- Dr. Eric Williams – UCLA Hospital – Los Angeles, California
 - Criminal Negligence →
 - Dr. Williams denies treatment for MS with clear gross features of MS.

34. 2018 September 21st

- Dr. Philip Kinkle – UCSD- San Diego, California
 - Criminal Negligence →
 - Dr. Philip Kinkle tries to lies about the quality of optic neuropathy in his report and denies medical treatment

35. 2018 October 23rd

- Dr. Luis Enrique Amaya Sanchez - Hospital Angeles Pedregal, Mexico City, Mexico
 - Criminal Fraud →

- The hospital falsifies the LP Test results though the doctor is a treating physician

36. 2018 November 8th

- Dr. Elizabeth Soto Cabrera – Hospital Angeles Tijuana, Mexico
 - Criminal Fraud →
 - SEP test is falsified with clearly erased values (amplitudes) and inappropriate interpretations

37. 2019 January 21st

- Dr. A. S. Arora – Apollo Hospital, New Delhi, India
 - Criminal Fraud → -
 - Falsified Radiology Report and to an impossible extent, makes it clear that there is an intent to falsify medical data.

Most instances of fraud or negligence are included in this report for investigation (there are more which I haven't included). Each instance has the location of fraud, name of the institution that perpetuated fraud as well and a description of how the fraudulence was perpetuated. The instances are sequentially listed according to when they took place but take place in different countries. The locations include the United States, Mexico (Tijuana and Mexico City), Europe (Berlin, Germany and Riga, Latvia), and Thailand (Bangkok)

Copies of the documents are in a digital format along with videos of clinicians hiding MRI data or erasing MRI data to try and hide the condition along with other forms of criminality in a medical setting. The involved diagnostic data from which fraud took place is available but not included.

The comparison data to show the clinical syndrome and the impossibility of the falsifications is also included. Due to the criminal fraud and criminal negligence the condition progressed without treatment causing damage to the optic nerves, brain, and spine. The intent of the criminal fraud is to cause physical disfigurement through medical negligence.

The USB Drive is organized in this order:

0-Preface of Criminal Report - Narendra Jana.pdf – This document.

1-Criminal Fraud and Criminal Medical Negligence Documents – A sequentialized listing of many instances of criminal fraud and negligence in this case with detailed descriptions of how the criminality was perpetuated.

2-Videos and Images of Crimes Being Committed to Cause Harm – Videos and images that show medical professionals hiding clinical data, how MRI series data was erased or attempted to be hidden, instances of evasiveness in criminality, and clinical condition during medical negligence.

3-Documents that Show the Clinical Condition – Documents to substantiate the underlying clinical condition with clinical summaries and diagnostics that shows the progression of neurological damage due to criminal negligence (not all clinical data is included but it is available when needed; this is for the sake of filing the case).
